

Join us for the
**35th Annual Summer Meeting of
The Toxicology Forum**

July 12-16, 2009
The Given Institute
Aspen, CO

Here is a list of [Aspen Hotels and Condominiums](#) offering discounted rates to our meeting attendees. You may find this information useful in making your lodging selection. Just mention “The Toxicology Forum” when booking to receive the discount. **Hotels in Aspen are very heavily booked**, so please make your reservation as early as possible.

Our Meetings have a reputation for covering emerging and timely issues relevant to toxicology in human health and the environment. We aim to provide a balanced meeting that explores, in depth, issues in applied and regulatory toxicology. We trust that you will find our meeting format unique, intellectually stimulating, and professionally relevant.

Keynote Lecture

Linda Birnbaum Ph.D., D.A.B.T., A.T.S.

Director of the National Institute of Environmental Health Sciences and the National Toxicology Program

Sessions:

- The Safety of an Omega-3 Fatty Acid Intermediate (SDA) Derived from Genetically Modified Soy Beans
- Quantitative Risk Assessment for Dermal Sensitization: What's an Acceptable Exposure
- Drug-Induced Chronic Heart Failure: Can it be Predicted from Non-Clinical Safety Assessment Studies?
- Fishbowl: Can Carcinogenicity Be Predicted by 6 or 12 Month in vivo Toxicology Data?
- Results from Analysis of a New Pharmaceutical Database
- EPA's IRIS Program: Re-evaluation of Ethylene Oxide
- The Linear No-Threshold Hypothesis: Recent Perspectives from Radiation and Chemical Toxicology
- Manufactured Nanoscale Materials: Carbon Nanotube Toxicity

Updates:

- Vitamin D: Recommended Daily Allowance for Health and Disease Prevention
- USP Food Chemical Codex: New Directions
- The Peanut Butter Salmonella Outbreak: An FDA Perspective
- Hemangeosarcomas in Rodents: Relevance to Humans?
- Do Pesticides Contribute to Parkinson's Disease?: A Contemporary Dilemma
- Internal Dosimetry Model for Safe Levels of Acrylamide in Humans
- Weight of Evidence Approach for Safe Levels of PFOA Risk in Drinking Water
- Results of the Union Carbide Cohort Mortality Study

Agenda
